About The Veterans Project of South Florida:

With the increase in young men and women returning from war in Iraq and Afghanistan with post traumatic stress disorders and multiple mental health issues, SEFAPP and The Florida Psychoanalytic Society have created "The Veteran's Project of South Florida", offering free mental health services to recently returning troops and their families in the South Florida community.

*We are an affiliate of the National organization **SOFAR** (Strategic Outreach to Families of All Reservists), a pro bono mental health project that provides free psychological support, psychotherapy, psycho-education and prevention services to extended family of reserve and national guard deployed during the Global War on Terrorism from time of alert through the period of reunion and reintegration. Visit www.sofarusa.org for more information and for affiliates outside of Florida.*
